

**Abstract**

The invention relates to new diphenylurea having the formula (I)

5

or a salt thereof, where

10 Y is C=O, C=S, C=NH, (C=O)<sub>2</sub> or SO<sub>2</sub> ;

and to processes for the preparation of these compounds  
and to their use in the treatment of protozoal diseases  
and to diseases where the inhibition of intracellular  
15 protein-degradation pathways is of benefit.
